Financial statement analysis

The financial statement analysis is based on the financial statement data of Sisua Digital Oy in the accounting period as at 31.12.2021. The analysis also utilizes the data of the accounting periods 2019-2020.

The company has been founded less than five years ago, so uncertain factors characteristic of new companies may be related with its development. The company is the parent company of the group Sisua Digital. The group turnover is 1,8 mill EUR, result -904 tEUR, balance sheet total 5,6 mill

EUR, return on investment -14,7 %, and equity ratio 65,3. The auditor has given an audit report of standard format.

The comparison includes 2039 companies in the industry class 62020 (Computer consultancy activities) from the period 2021. The risk of

Industry comparison

> bankruptcy in the line is 0,1 %, and the risk of payment defaults 2,8 %. The risk of payment defaults is lower than average.

The turnover of Sisua Digital Oy is small (779 tEUR) in relation to all active companies. The company's turnover in relation to the balance sheet

total is small. Thus, part of the ratios and comparisons are left out of

Volume

the examination. In the latest accounting period, the company employed 16

persons on average.

Profitability Ratios proportioned to the turnover are not interpreted, because the

company's turnover is small, proportioned to the balance sheet. The central

ratio for profitability, return on investment, is poor (-8,0 %). This is clearly lower than the average in the line (median 13,8 %). If, instead of the return on investment, the return on assets is

calculated, taking also into account interest-free loans, the return ratio is -7,8 %. The share of interest-free loans in the company's balance sheet is small, due to which the return on assets and the return on investment are close to each other. The return is poor, in relation to the line of

business (11,8%).

Liquidity The liquidity is passable, measured by current ratio (0,8), which is

considerably lower than the average in the line (median 2,5). The company's

financial buffer is very small compared to the median level in the line of business. The financial buffer declined drastically in the past year. The solvency of Sisua Digital Oy is very good, measured by equity ratio

(72,8 %). The median of the equity ratio in the line is 75,0%. The

company's net gearing is 0,3, which can be considered good.

Summary and remarks

Solvency

The company belongs to the group Sisua Digital. The return on investment of the group is poor and the equity ratio very good. The cash-flow based

operational surplus of the group is negative.

Because of its solvency, the company has the qualifications to also bring the profitability to at least a satisfactory level in order to secure the

preconditions for activities in the long term.

The verbal interpretation of the financial statements analysis has been produced programmatically from unadjusted financial statements.
